Wall & Shackle Versions

The E-LOK 737-BLK and 738-BLK are Bluetooth Smart Key safes, capable of connecting to your phone via the E-LOK Smart Lock App.

With 2 versions available; Wall Mount (738), and Shackle (737), there is a wide range of situations that the E-LOK Keysafe is fit for.

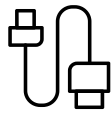

Unlock your Keysafe via the E-LOK Smart Lock App*, with either Bluetooth, or Remotely via E-LOK Gateway, or unlock with a Passcode via the Lit Electronic Keypad.

With custom pin-codes such as timed, recurring, and permanent, experience the convenience and security of having full control over the contents of your Keysafe!

*When unlocking the Keysafe via any method, whether that is remotely, or in close proximity, the hatch will need to be shut manually to be secure.

Unlock Via Keypad,
or E-LOK App.
