The E-LOK 9-SERIES
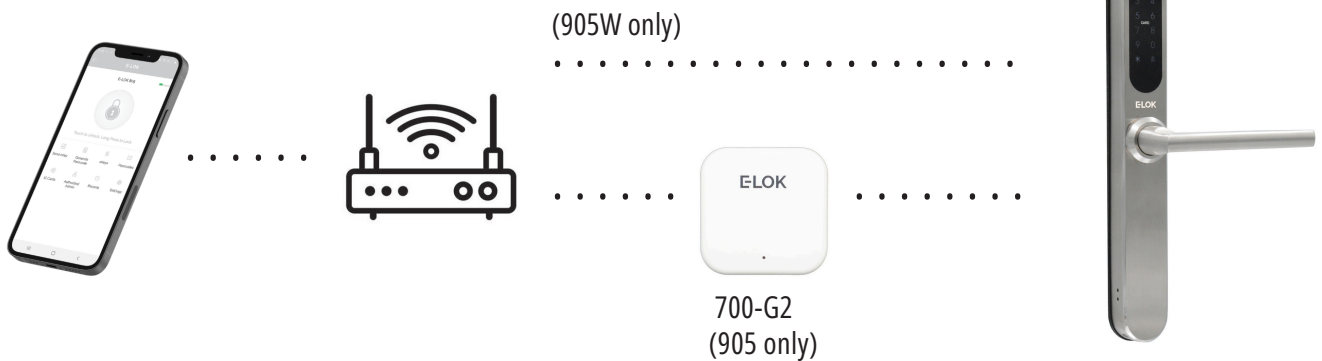

a few shades smarter

Gun Metal

The E-LOK 9-SERIES comes in two new shades for the discerning homeowner, Gunmetal and Satin Brass. The battery life has been improved and the new IP66 Rating means it can withstand those unforgiving storms.

The 9-Series is powered by the same E-LOK app which has proven itself to be the most user friendly and intuitive interface on the market. Experience the convenience of an integrated Wi-Fi version, where you can control the lock remotely via Wi-Fi without needing a separate gateway module*.

The E-LOK 9-SERIES is available in the narrow profile that fits our unique style of joinery. An extensive range of back sets are available to suit a wide range of timber and aluminum doors. The 9-SERIES works with the E-LOK 28mm & 35mm sliding mortice locks, and they have the option of a snib lever also.
